

RAFFCOMM

SDN. BHD.

199901024619 (499519-U)

Raffcomm Group started out with the holding company, Raffcomm Sdn Bhd being incorporated in November 1999, with the aspiration to drive the nation's growth in digital technology adoption.

The year 2006 saw Raffcomm being appointed as Suruhanjaya Syarikat Malaysia (SSM)'s first service provider, to play a vital role in SSM Digital Transformation, converting SSM's counter-dependent services onto remotely accessible online services, via the portal SSM E-Info. Raffcomm was also one of the pioneers to receive a non-bank E-Money Issuer (EMI) approval from Bank Negara Malaysia (BNM) in 2013, to operate its own e-wallet in the SSM E-Info Portal.

The mileage gained in process automation and document digitalization were then utilised to help other agencies and private organisations alike, in embarking on their own digital transformation journey, leveraging on API Integration and auto-population of data direct from the SSM data source.

Certified True Copy

RAFFTECH

RAFFCOMM TECHNOLOGIES SDN. BHD.
201001015771 (1000449-W)

In 2010, responding to SSM requirements to provide for Digitally Certified True Copy (DCTC) of SSM documents, a subsidiary, Raffcomm Technologies Sdn Bhd (Rafftech) was incorporated, where it began its journey towards becoming a Certification Authority (CA). Rafftech was awarded the CA operating license by Malaysian Communications & Multimedia Commission (MCMC) in November 2018, and went on to participate in the nation's MAMPU MyGPKI initiative in 2020.

Committed to promote market adoption of Digital Signature technologies, Rafftech was the first of the four CAs in Malaysia to migrate to Cloud and thereon developed its own Cloud Signing Platform called Cyphersign in 2022.

Fuelling its "Digital Integrity & Efficiency" mission, Raffcomm Group packages the two companies' offerings, and steadfastly marches on towards the nation's digital transformation goals.
